## GRADUATION REQUIREMENTS

Home / Offices and Programs / College and Career Readiness Bureau / Graduation Requirements

New Mexico's graduation requirements are necessary for students to earn a Diploma of Excellence, and provides students with strong preparation for college and career readiness. Currently, far too many students drop out or graduate from high school without the knowledge and skills required for success in the 21st century workplace and/or post-secondary education, closing doors, and limiting future options.

Dropping out of high school is no longer a viable option. High school dropouts in New Mexico face a 13 percent unemployment rate and earn an average annual income of \$11,426. Nearly every good job requires some certification, license, apprenticeship, associate's degree, or other advanced credential.
